

## Hypnotherapy/RTT – Consent Form

I \_\_\_\_\_ (clients name) give Victoria Boylan C.hyp full permission to do an RTT session on me. Victoria Boylan C.hyp offers Rapid Transformation Hypnotherapy which includes hypnosis and regression techniques. With RTT clients remain conscious and in complete control throughout but will feel a strong sense of relaxation.

During an RTT session the client is usually regressed back to early memories to help discover the root cause of their issue then the client and Victoria Boylan C.hyp work together using different tools to gain understanding of where the belief/behavior originated, with a view to change it.

RTT alone does not offer any guarantee of success. The client must want change be open and motivated. The client must be willing to **fully** participate in the session and to implement the recommendations of the hypnotherapist and listen to the personalized recording each day for at least 21-30 days.
